

The Money Tree

The Money Tree This game is based on actual problems people have had with Sallie Mae, but sadly, the method used in the game to pay Sallie Mae is not. My wife, April, designed and programmed The Money Tree. You can visit her web site at <http://april4design.com>. We have plans for several additions and improvements to the game, but please feel free to contact me with your suggestions! We hope you enjoy the game!
